

REMARKS/ARGUMENTS

The Office Action of July 25, 2006 has been carefully reviewed as has a complete response mailed January 3, 2007 prepared and filed by Thomas Evans of Banner & Witcoff, Ltd. for applicants. This supplemental amendment is being hand-carried for consideration by the Examiner at a personal interview scheduled for March 6, 2006. Claims 55-61 have been added to present claims of varying scope in addition to the presently pending and amended claims. Claim 55 is an independent claim very similar to independent claim 43 as amended. Claim 55 further defines the services provided by each of recited first and second wireless service providers, defines a vehicular wireless telephone as "integrated into an electrical control system of a vehicle" and so more clearly defines the environment of independent claim 43. Claims 56-61 have been added as dependent claims to claim 56 to claim features of the system of claim 55 supported by the specification: specific shared services, display of MPEG encoded image data and proximity detecting and rerouting. Reconsideration and allowance of the instant application are respectfully requested.

CONCLUSION

All rejections having been addressed, applicant respectfully submits that the instant application is in condition for allowance, and respectfully solicits prompt notification of the same. However, if for any reason the Examiner believes the application is not in condition for allowance or there are any questions, the Examiner is requested to contact the undersigned at (202) 624-7325.

Respectfully submitted,

POWELL GOLDSTEIN, LLP

Dated this 6th day of March, 2007
